## Agile Project Management

---

**Trainer:** Svenja Neupert / Mark Edwards

**Duration:** 2 days

**Language:** English or German

---

### *How to create successful projects and productive project-teams*

Scientific and corporate work-processes are more and more based on project-work with intercultural members.

This needs competences in two areas- project management skills and also the knowledge of how to build a team and to be able to co-operate with a variety of different personalities.

In this seminar we teach you how to combine these two abilities.

#### **Content:**

- What is a project?: Definition and outline
- What is classical and agile project management? – the Agile manifesto – Values and Principles. Modern leadership.
- What are the phases of a project? Types of project working styles– Sprint & Scrum
- How do I set up a project? Project design - W-questions - Transparency
- How to build a productive project team (3 key tools) Leadership styles and models
- How do I use the differences of the team members (diversity)? DISC - Mitigating resistance
- Information and communication in the team (tools and meetings)
- Typical difficulties in the project and how to overcome them. Goal Clarity. Time management as a team

#### **Methods:**

The seminar comprises inspirational input, exercises, small group work and group discussion. A lively learning atmosphere is created, and sustainable results obtained.
